Projects

Confluence/Rovo: Answer Your Questions - Atlassian(WIP)

- Built a Rovo agent that auto-detects and respond to commented questions on Confluence pages
- Agile workflow through writing Epic's and User Stories
- Built with Forge, NodeJS and TypeScript
- For access to the repo please contact me

Shuukan - Visual Habit Tracker (WIP)

- Built a habit tracking web-app built using React and Supabase
- Prototyped the user interface in Figma, focusing on mobile-first design and usability
- Implemented Supabase Auth and developed CRUD functionality for habits and grouped tasks
- Added progress visualizations to track progress across multiple habits
